Global challenges ahead, Millennium Project report, 129
Global learning, and economic development, 1

Industrial development, role of incentives, infrastructure, and institutions, 87
Innovation diffusion
  importance of geography, 31
  role of exporting, Mexico, 75
Institutions, critical to industrial development, 87

Knowledge
  importance of geography in diffusion of, 31
  for inclusive development, 1
  role of technological entrepreneurship in the transfer of, 59
Korea, economic impact of occupational grouping, 111

Machine tools industry in the United Kingdom, adoption of computer technology, 31
Mega-material development in the new millennium (Perspective), 121
Mexico
  auto industry, industrialization, 87
  glass manufacturing, evolution of technology strategy in open markets, 75
Millennium Project of the American Council for the United Nations University, accumulated 3-year research, 129

Occupational grouping, economic impact of development of, in Korea, 111

Patenting and R&D activity, link with firm size and market concentration, 47
Portugal, biotechnology firm creation in, 59

R&D and patenting activity, link with firm size and market concentration, 47

Social capital, necessary for national learning, 1

Taiwan, auto industry, industrialization, 87
Technology policy and innovation, special issue on
  biotechnology entrepreneurs and technology transfer, 59
  economic development and occupational grouping, 111
  evolution of technology strategy in opening markets, 75
  geographical clusters and innovation diffusion, 31
  incentives, infrastructure, and institutions for industrial development, 87
  introduction, 1
  knowledge for inclusive development, 1
  patenting, R&D, and market structure, 47
Technology transfer, from public research to productive realm through entrepreneurship, 59

United Kingdom machine tools industry, adoption of computer technology, 31

Wage data, finding major determinants of occupational wage performance, 111
